Mooney International has officially selected MEE Inc. as their main contract of analytic support for its new trainer aircraft. This new contract brings Mooney the opportunity to provide analysis of competitive pricing for their new Mooney M-10 models.

The CEO of Mooney, Dr. Jerry Chen, states, “After reviewing the MEE Inc. 4D software, we feel very confident in our ability to bring the M-10J and M-10T at the right market prices to benefit our new customer market.”

MEE Inc. 4D software, which has been in development over the past three years, is an industry analytical tool that provides the most accurate pricing and sale projections, based on the broadest and most up to date industry datasets. “We are thrilled that Mooney has selected us to provide them with this vital tool of information for their M-10 aircraft,” says Doug Howarth, President of MEE Inc.

About Mooney:

Mooney International Corporation has manufactured and delivered more than 11,000 aircraft worldwide. The Company manufactures the fastest single engine airplane in the industry. Today, more than 7,800 customers in the United States and 1,000 more overseas fly these proven, high-performance airplanes. For more information, visit www.mooney.com.
